

AGRICULTURAL SOCIETIES COUNCIL OF SOUTH AUSTRALIA incorporated
MURRAY BRIDGE A&H SHOW – DAIRY CATTLE JUNIOR HANDLERS Sept 25th 2021
ANIMAL HANDLING RISK ACKNOWLEDGEMENT & WAIVER

Agricultural Societies Council of SOUTH AUSTRALIA incorporated and Murray Bridge A&H Society (together **the Suppliers**) advise that participation (including passive participation) in animal handling at an agricultural show contains elements of risk, both obvious and inherent. The handling of animals is a dangerous recreational activity as animals can act in a sudden and unpredictable way, especially when frightened or hurt.

By signing this waiver I acknowledge that:

participation in animal handling is a recreational service for the purposes of section 139A of the **Australian Competition and Consumer Act (Cth) 2010**, and also a recreational activity for the purposes of section 42 of the Fair Trading Act (1987) SA;

participation in animal handling is a hazardous activity & may result in injury, loss, damage or death to me;

participation in animal handling requires certain skills and experience. I declare that I have sufficient skills and experience to be able to safely and properly participate in the events;

animals can act in a sudden & unpredictable ways, especially if frightened or hurt, or if exposed to loud or unfamiliar noises;

animal showing events will be held in close proximity to rides and large groups of people, and that there may be loud and unfamiliar noises which can frighten animals;

there are risks to me as a result of the weather conditions, including either extreme hot or cold weather, rain or wind;

insects or other animals may cause animals to become frightened & act in an unpredictable way;

there is inherent in events involving the handling of animals the risk of suffering injury including injuries caused by animals; and

I use the facilities supplied for the event entirely at my own risk, as I find them and with the prior acceptance of the risk of possible danger to me.

If I suffer injury, loss or damage (**Loss**) while participating in an animal handling event, I will not hold the Suppliers, their employees or agents legally responsible for any Loss I suffer. I will not sue the Suppliers, their employees or agents for any claims, costs, damages or liability. I agree to release the Suppliers and their employees from legal responsibility for the services I have been provided and/or activity I have participated in.

I acknowledge and agree that my participation in the event and associated activities is dangerous & may have inherent risks as a result of which personal injury (and sometimes death) may occur. I acknowledge that the event & associated activities carry with them a significant risk of physical harm. I accept & assume all such risks of personal injury or death in anyway whatsoever arising from these activities & hereby waive my individual right to sue the Suppliers for all claims I or my representatives may have for such personal injury or death against the Suppliers in any way whatsoever arising from or in connection with these activities.

At the time of participating in the event, I have not been to any degree under the influence of alcohol or illicit drugs.

I will not consume any alcohol or illicit drugs while participating in the Event and agree that such use may result in me being excluded from the Event or other events with no entitlement to any refund of money paid for entry to the Suppliers.

I agree to be bound by the rules and guidelines of the Agricultural Societies Council of SOUTH AUSTRALIA incorporated as varied from time to time.

NATIONAL CATTLE HEALTH DECLARATION

V. 02/05/18

Property Identification Code (PIC) of this property
 This MUST be the PIC of the property that
 the stock is being moved from

--	--	--	--	--	--	--	--	--	--

Attached to accompanying NVD/Waybill No.

--	--	--	--	--	--	--	--	--	--

Biosecurity and health information

1. Has the owner stated above owned all the cattle in this consignment since birth? Y N

2. Does the property of origin have a completed on-farm biosecurity plan? Y N

3a. Have these cattle been tested for the presence of pestivirus antigen?
 If tested, were any cattle found to be persistently infected? Y N

3b. Have these cattle been tested for the presence of pestivirus antibody?
 If tested what percentage of the tested cattle were antibody positive? Y N

4. Has the property of origin had an occurrence of clinical Johne's disease (JD) in any species in the past five years? Y N Unsure

5. On the property of origin, have cattle been co-grazed with dairy cattle? Y N Unsure

See explanatory note for advice on co-grazing with non-bovine species

6. Has the source herd had a JD test? Y N Pending
 If so, which test? Check Test Sample Test Date / /

Was the result negative? Y N

7. If dairy cattle, the consignment has a Dairy Assurance Score of: Part A (herd base score) Part B (calf grading) Part C (herd Dairy Score)

8. Any other relevant health information

Treatments

Treatment type	Product	Date of treatment within last 6 months
Drench or pour-on		
Liver fluke		
Other treatments		

Current vaccinations for the cattle being moved (see explanatory note)

Clostridial (e.g. 5 in 1):	Y <input type="checkbox"/>	Botulism:	Y <input type="checkbox"/>
Leptospirosis (e.g. 7 in 1):	Y <input type="checkbox"/>	Bovine ephemeral fever:	Y <input type="checkbox"/>
Pestivirus:	Y <input type="checkbox"/>	Tick fever:	Y <input type="checkbox"/>
JD (Siltum):	Y <input type="checkbox"/>	Vibrio:	Y <input type="checkbox"/>
Other vaccinations (specify):			

Declaration (see explanatory notes for further information)

I, (full name)

(Address) (Town/suburb) (State) (Postcode)

declare that I am the owner or the person responsible for the husbandry of the cattle and that all the information in this document is true and correct. I also declare that I have read and understood all the questions that I have answered, that I have read and understood the explanatory notes, and that I have inspected the animals and deem them to be healthy, free of signs of disease and fit to travel.

Signature* Date / /

*Only the person whose name appears above may sign this declaration, or make amendments which must be initialed

NATIONAL CATTLE HEALTH DECLARATION EXPLANATORY NOTES

OVERVIEW

The Cattle Health Declaration is a legal document. Please complete accurately before signing.

Cattle Health Declarations are a way for producers to provide information about the health status of the cattle they are selling. Buyers should ask vendors for a Declaration and use the information provided to determine the health risks associated with the animals on offer.

Some states/territories require testing or certification additional to that outlined in this document e.g. Johne's disease (JD) in WA and for Enzootic Bovine Leucosis (EBL) in Tasmania. Please check the entry requirements for any interstate movements at: www.animalhealthaustralia.com.au/what-we-do/endermic-disease/livestock-movements

The original of this form is to be attached to the National Vendor Declaration (NVD) form accompanying the cattle, if applicable. A duplicate remains with the vendor; it is recommended the vendor retains a copy of this declaration for seven (7) years.

TREATMENTS & VACCINATIONS

Provide details on any cattle treatments in the last six (6) months and vaccinations within the last twelve (12) months.

Some manufacturers include more than one of the categories listed in the same vaccine, known as a combination vaccine. If you use a combination vaccine, each agent(s), as appropriate, should be detailed.

For vaccinations to be current, you must have followed the manufacturer's recommendation for vaccination. Typically, young animals or first time vaccinated animals need two (2) doses, followed by annual boosters. As variations to this general rule do occur (e.g. Silirum is given once only), you must use the manufacturer's recommendations.

At the date the declaration is made and as a result of the vaccination(s) given, the animals are considered protected from the diseases marked as treated.

QUESTION 3: PESTIVIRUS TESTING

Persistently infected animals can be detected by conducting a pestivirus antigen test.

This test only needs to be conducted once in an animal's life. Cattle that test positive in most cases are persistently infected animals. Pestivirus antibody testing may be done to check the pestivirus status of the herd. Contact your veterinarian for assistance.

QUESTIONS 4, 5 & 6: JOHNE'S DISEASE BEEF CATTLE

Note: JD is a notifiable disease, so it is important to answer these questions.

Occurrence of JD refers to clinical disease in the herd or on the property(s). Clinical disease is an infected animal with chronic diarrhoea and weight-loss that does not respond to treatment.

The **Johne's Beef Assurance Score (J-BAS)** is a voluntary tool developed for JD risk profiling. Details are available at www.animalhealthaustralia.com.au/jd-cattle-tools.

The J-BAS is an initial guide and purchasers should ask for more information about JD in the origin herd (see the JD in Cattle Biosecurity Checklist on the 'JD in cattle' webpage). The *National Farm Biosecurity Reference Manual - Grazing Livestock Production* provides a template to use for the property biosecurity plan. All plans should include the JD in Cattle Biosecurity Plan Checklist.

Check test – testing of 50 adult animals in the herd (or all eligible animals in a herd if less than 50 adult animals) biased to increase the probability of detecting infection, tested by (pooled) faecal culture or (pooled) HT-J faecal PCR. An ELISA test is available but is not recommended and also not accepted for entry of cattle to WA.

Sample test – screening of the adult herd or a large representative sample of the adult herd by an approved test (pooled) faecal culture or (pooled) HT-J faecal PCR. See note above for ELISA test.

Grazing of non-bovine species – Buyers of cattle from this consignment may consider the grazing of other JD-susceptible species (sheep, goats, alpacas) on the source property as important to their risk-management decisions. These buyers are entitled to seek information on how you have managed disease risks for all your livestock.

QUESTION 7: JOHNE'S DISEASE DAIRY CATTLE

JD herd status information about Dairy Assurance Score calculation is available at www.dairyaustralia.com.au/bid

DECLARATION

This section must only be completed by the owner or person responsible for the husbandry of the cattle in the consignment.

For more information on what is fit to travel, please see MIA's *Is it fit to load?* at <http://publications.mla.com.au/gq/yzXUWsNcYsisele>.
